OBJECTIVE

Computer Engineering student at the University of California, Riverside seeking an internship in software or hardware engineering. Developed technical skills in C++, Verilog HDL, and web development through academic coursework and independent projects. Eager to contribute programming, debugging, and problem-solving skills to the development of reliable engineering systems.

TECHNICAL SKILLS

Languages & Technologies: C++, Verilog HDL, LC-3 Assembly, JavaScript, HTML, CSS
Tools: Visual Studio Code, MATLAB, EDA Playground, Git, GitHub
Technical Concepts: Object-Oriented Programming, Logic Design, Debugging, Data Structures
Spoken Languages: English (Native), Spanish (Native), French (Proficient)

EDUCATION

University of California, Riverside — Riverside, CA
Bachelor of Science in Computer Engineering — Expected 2028
B.S. + M.S. Computer Engineering Pathway — GPA: 3.70/4.00

TECHNICAL PROJECTS

Horror Survival Game | C++ — 2025–Present

- Developed a text-based survival game featuring four enemies, randomized movement mechanics, and four difficulty settings.
- Implemented an object-oriented C++ enemy system with configurable AI behavior and time-based movement.
- Prototyped multithreading and nonblocking terminal input to support future real-time gameplay integration.

Personal Portfolio Website | HTML, CSS, JavaScript — *loganbvargas.com*

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase engineering projects and technical skills.
- Implemented an interactive project carousel with expandable cards and dynamic content presentation.
- Created responsive layouts and mobile navigation using CSS media queries and JavaScript event handling.

HONORS & ACHIEVEMENTS

Valedictorian Honors — 4.0+ Weighted GPA — 2025
French Seal of Biliteracy — 2025
